

Name, Year, University, Field of study?

Fateme KHATAMI, 2nd year Msc, Islamic Azad University, Cellular and Molecular Biology

2 - How often do you study (days per week)? For how long? In a group? Alone? If alone: Have you ever thought about/ tried working in a group? If no: Would you like to? Would it bother you? If in a group: With how many people? Often? Do you know these people? Would you like to work with people you don't know?

I usually study just for my exams that's 2 times in a year (it would be for 3 weeks each time). But I study articles 3,4 days per week. I always study alone and I have not tried to study in groups because I study better when I'm alone.

3 - When was the last time you studied in a group? Where? Why? At what time?

I think it was for the time when I was studying at high school with my friends.

4 - Have you ever had questions to which you couldn't find an answer? (From someone or on the internet)

Yes I had but actually I could search more but I didn't 😊

5 - Have you ever worked with people you didn't know? Were there any problems? Would you have changed anything?

Yes I had. In laboratory I should do it but it was good and I didn't have any problems thanks god

6 - Have you ever had trouble finding a place to study? A space other than a University Library / Library? Alone / In a group?

No I don't because I can study anywhere 😊

7 - Difficulty in finding availability?

Yes it is difficult to find a day that is good for everyone

8 - Before / After the work session? (As a "reward" for work, after the effort, the comfort!)

Yes sometimes i set a reward for after my studying

9 - Do you take breaks during your work sessions? (For a coffee, a small snack, other...)

Yes I have. Maybe after 1 hour

10 - How would you like to study?

It is important for me that the place i study be clean and also be comfortable for example my chair or ...

11- Has there been any situation in which you have preferred to study in gp rather than alone?

Yes sometimes that my subject is hard and it needs to understand well like maths or..

12- Would studying in groups motivate you when you dont feel like studying?

Rarely it would motivate me. I should be in the mood of study well
